

Power-trac

Many evacuation situations involve travel upstairs from below ground or to an area of refuge on a higher floor. The Power-trac is equipped with a powerful motor and battery allowing a single attendant to transport a heavier passenger up many flights of stairs.

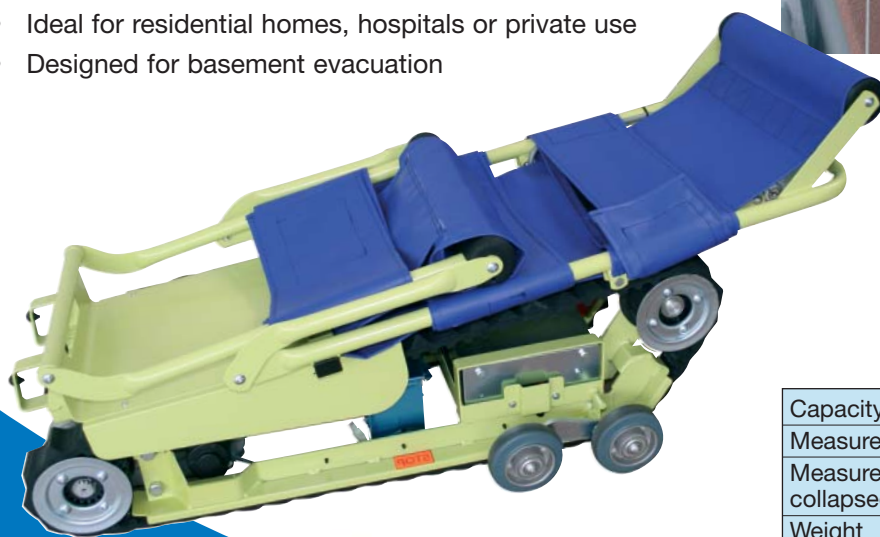

The Power-trac provides easy ride up and down stairs for people who are unable to climb stairs. Guided by only one person, Power-trac climbs straight stairs up to a maximum stair angle of 35°.

Features

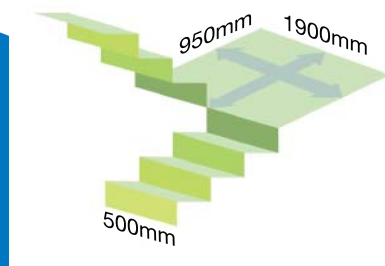

- Quick and easy set up for immediate use
- Carries up to 110kg
- Powerful motor transports passengers up and downstairs
- Failsafe brake brings unit to a complete stop automatically
- Adjustable safety straps
- Stable and self-supporting
- Durable tracks grip stairs securely
- The track grips the stairs, regardless of the stair construction material

Benefits

- Mobile for use on various stairs
- Collapsible - small enough for nearly any car boot
- Ideal for residential homes, hospitals or private use
- Designed for basement evacuation

Minimum
stair-landing
dimensions

Capacity	110kg

Stair-mate

Suppliers of the best mobility & evacuation products available

Stair-mate is an easy to use, portable wheelchair lift designed to attach under most manual wheelchairs.

Stair-mate's powerful motor allows a small attendant to safely transport a larger person up and down stairways. Stair-mate is suitable for indoor and outdoor use in public buildings and private homes. An affordable and reliable portable access solution.

Features

- Attaches to most standard wheelchairs with push handles (adult/child)
- Powered to carry 130kg (285lbs) up approximately 30 floors
- Use on virtually any indoor or outdoor stairway
- Stable and self-supporting
- Durable tracks grip stairs securely
- Detachable support handle for compact storage and easy transport
- Quick-release safety belt
- Key switch restricts use to authorised persons
- Rechargeable batteries and charger

Benefits

- Economical when compared to stairway lifts and elevators
- Can be used on various stairways within a building
- Can be used when electrical power fails or is not available
- Easily stores in a secure area when not in use
- Requires minimal maintenance
- Available immediately

SWALLOW MOBILITY

Super-trac

The Super-trac carries all types of wheelchairs. It is the world's only portable inclined platform lift. It provides instant, affordable accessibility where stairways are a barrier. The unique platform design will accommodate all types of wheelchairs including power, child, sports and conventional adult wheelchairs.

Super-trac is ideal for public and residential buildings. It's simple to operate, robust and incorporates many safety features.

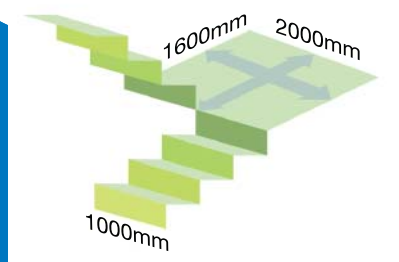

Features

- Large platform will accommodate virtually any wheelchair including electric and sports chairs
- Integrated non-slip loading ramp
- Powerful dual motors carry up to 200kg (440lbs)
- Operates on indoor and outdoor stairways
- Includes rechargeable battery and charger
- Wide double tracks securely grip stairs
- Large wheels allow easy travel across landings between stair flights
- Integrated tie-down straps and seatbelt hold wheelchair securely on platform
- Adjustable headrest
- Simple, easy-to-use controls
- Robust commercial design

Benefits

- Economical when compared to elevators and custom designed wheelchair lifts
- Requires no building renovations, no installation permits or licenses
- No permanent impact on stairway egress width
- A single unit provides access into many buildings
- Requires minimal maintenance
- Great back-up system for evacuation if power fails
